Subject index

Acetylcholine,
effects on growth hormone cortisol secretion, man 379
ACTH,
pre-weaning stress effects on 233
secretion, pituitary cells, regulation 117
secretion, role—corticotropin-releasing hormone 77
Action potentials,
supraoptic nucleus, role—vasopressin 215
α-Adrenoceptors,
role—growth hormone-releasing hormone secretion, hypothalamus 129
Angiotensin II,
distribution, brain, rat 123
Antioestrogen,
effects on luteinizing hormone regulation, rat 279
Aplysia,
gill withdrawal reflex 29
Arcuate nucleus,
β-endorphin-induced prolactin release, rat 449
growth hormone releasing factor, association—somatostatin receptors, rat 109
tyrosine hydroxylase-containing neurons, progestin receptors, guinea-pig 333
Arginine vasopressin,
intrathecal, effects on renal nerve, rat 339
Arginine vasotocin/mesotocin
brain, embryonal development, chicken 473
Aromatase,
brain, development, fetal ferret 265
Assays,
c-terminal glycopeptide of vasopressin precursor, guinea-pig 95
immunochemiluminometric assay, growth hormone-releasing hormone, rat 433
radioreceptor assay, calcitonin gene-related peptide 15
Atrial natriuretic factor,
release, hypothalamus explants, rat 309
Autonomic nervous system,
gastric acid secretion/emptying, dog 163
Autoradiography,
melatonin receptors, pars tuberalis, sheep 1

Behaviour,
gill withdrawal reflex, *Aplysia* 29
locomotor, corpus striatum function, rat 285
maternal, cholecystokinin octapeptide effects on, rat 389
sexual, hypothalamic norepinephrine effects on, rat 383
Biogenic amines,
hypothalamus, Cushing's disease, dog 169
Brain,
acetylated vasopressin/oxytocin 47
angiotensin II distribution, rat 123
arginine vasotocin/mesotocin gene expression, embryonal development, chicken, 473
aromatase, development, fetal ferret 265
insulin-like growth factor I receptors, rat 369
α-melanocyte-stimulating hormone, *Salmo gairdneri* 53
melatonin receptors, hamster 315
progestin receptors 291
renin-angiotensin system, regulation—prolactin secretion 299
white matter, man, cholesterol metabolites 153
Burst activity,
dissociated neurons 89

Calcium-activated K^+ channels,
burst activity, dissociated neurons 89
Calcitonin,
gene-related peptide, radioreceptor assay 15
Cerebrospinal fluid,
prolactin, oestrogen treated/lactating rat 345
Cholecystokinin,
levels, brain, liver disease, rat 235
octapeptide, effects on maternal behaviour, rat 389
Cholesterol,
metabolites, localization, white matter, man 153
Corpus striatum,
dopaminergic function, castration effects on, rat 285
Corticotropin-releasing hormone,
cortisol response, depression, man 485
paraventricular nucleus, Cushing's disease, dog 169
regulation—ACTH secretion, pituitary cells 117
role—ACTH secretion 77
stimulation of neurohypophysial hormone release 5
Corticosteroids,
interactions—intracellular/membrane receptors, brain, rat 243
Cortisol,
response, dexamethasone + corticotropin-releasing hormone, depression, man 485
secretion, cholinergic agonists effects on, man 379
Cushing's disease,
dog, biogenic amines/corticotropin-releasing hormone, hypothalamus 169

Depression,
dexamethasone + corticotropin-releasing hormone, cortisol response, man 485
Dexamethasone,
suppression test, cortisol response, depression, man 485
Dopamine,
paraventricular nucleus/median eminence, Cushing's disease, dog 169
Dopamine β-hydroxylase,
negative cells, pineal gland, electron microscopy/immunocytochemistry, hamster 423
Dopaminergic function,
corpus striatum, castration effects on, rat 285

EEG activity,
milk ejection reflex, oxytocin effects on, rat 173
Electrical stimulation,
suppression—growth hormone secretion, rat 209
β-endorphin,
induced prolactin release, arcuate nucleus/preoptic nucleus, rat 449
levels, brain, liver disease, rat 235
stress effects on 357
Epinephrine,
paraventricular nucleus/median eminence, Cushing's disease, dog 169
regulation—luteinizing hormone release, rat, 157

Follicle-stimulating hormone,
pulsatile secretion 185

GABA,
oestradiol effects on, suprachiasmatic nucleus, rat 415
receptors, brain, interaction—corticosteroids 243
Genes,
c-erb-A gene, cloning/characterization, neuroblastoma, mouse 351

Glucocorticoids,
receptors, pituitary gland, rat 465
Glutamic acid decarboxylase,
hypothalamus, melatonin effects on, rat 443
Glycopeptides,
C-terminal, vasopressin precursor, radioimmunoassay, guinea-pig 95
Gonadotropin,
mRNA levels, pituitary gland regulation, sheep 327
pulsatile secretion, sheep 61
Gonadotropin-releasing hormone,
effects on gonads/testosterone levels, *Podarcis s. sicula* 205
pulsatile secretion 185
pulsatile secretion, regulation, sheep 61
regulation—gonadotropin, pituitary gland, sheep 327
Growth-hormone,
release, rats 249
secretion, cholinergic agonists effects on, man 379
secretion, suppression, electrical stimulation, rat 209
secretion, ultradian rhythm, rabbit 147
vasointestinal peptide/prolactin effects on, rat 135
Growth hormone-releasing hormone,
immunochemiluminometric assay, rat 433
neurons, association—somatostatin receptors, arcuate nucleus, rat 109
release, hypothalamus, glucose effects on, rat 437
secretion, role—α-adrenoceptors, hypothalamus 129

Hippocampus,
vasopressin/oxytocin release, lactating rat 305
5- Hydroxytryptamine,
oestradiol effects on, suprachiasmatic nucleus, rat 415
Hypothalamus,
biogenic amines/corticotropin-releasing hormone, Cushing's disease, dog 169
catecholamine nerve terminals/neuroendocrine function, nicotine effects on, rat 455
explants, atrial natriuretic factor release, rat 309
glutamic acid decarboxylase activity/chloride influx, melatonin effects on, rat 443
growth hormone-releasing hormone—containing neurons, association—somatostatin receptors, rat 109
growth hormone-releasing hormone secretion 129
insulin secretion-promoting factor 103
median eminence, neuropeptide Y secretion, proestrus, rat 83
α-melanocyte-stimulating hormone release, rat 393
neuropeptides, glucose effects on, rat 437
norepinephrine release, effects on sexual behaviour, rat 383
preoptic area, oxytocin mRNA levels, oestrogen effects on 273
vasopressin/oxytocin-containing neurons 73

Inhibin,
effects on gonadotropin/gonadotropin-releasing hormone, sheep 61
Insulin,
secretion-promoting factor, hypothalamus, rat 103
Insulin-like growth factor I,
binding, pituitary cells, rat 179
receptors, brain/pituitary gland, rat 369

Kallikrein,
pituitary gland, rat 199
Keoxifene,
effects on luteinizing hormone regulation, rat 279
Kidney,
renal nerve, intrathecal arginine vasopressin effects on, rat 339

Liver disease,
β-endorphin/cholecystokinin levels, brain, rat 235
Luteinizing hormone,
antioestrogen effects on, rat 279
feedback regulation, naloxone effects on, sheep 227
pulsatile secretion 185
pulsatile secretion, rat, methodology 237
pulsatile release, regulation, rat 157
pulsatile secretion, regulation—ovary, pregnant rat 257
release, hypothalamus, glucose effects on, rat 437
secretion, proestrus, neuropeptide Y levels, rat 83
surge, proestrus, rat, role—pineal gland 195
Luteinizing hormone-releasing hormone,
antioestrogen effects on 279
receptors, pituitary gonadotrophs, rat 141

α-Melanocyte-stimulating hormone,
brain, *Salmo gairdneri* 53
release, hypothalamus, rat 393
Melatonin,
effects on glutamic acid decarboxylase/chloride influx, hypothalamus, rat 443
receptors, brain/pituitary gland, hamster 315
receptors, pars tuberalis, sheep, autoradiography 1
Membrane currents,
Ca^{2+}-activated K^+ channels, burst activity, dissociated neurons 89
Xenopus oocytes 65
Milk ejection reflex,
rat 173
Morphometrics,
supraoptic nucleus, multiple synapse formation, rat 21

Naloxone,
effects on luteinizing hormone secretion, sheep 227
Nerves,
renal, intrathecal arginine vasopressin effects on, rat 339
substance P, relationship—somatotrophs, pituitary gland, monkey 397
Neuroblastoma,
c-erb-A gene, cloning/characterization, mouse 351
Neuroendocrine function,
hypothalamus, nicotine effects on, rat 455
Neurohypophysial hormone,
acetylation 47
release, stimulation, corticotropin-releasing hormone 5
secretion, regulation, rat 35
Neurons,
dissociated, burst activity 89
tyrosine hydroxylase-containing, progestin receptors, arcuate nucleus, guinea-pig 333
vasopressin/oxytocin mRNA-containing, localization, hypothalamus 73
Neuropeptide Y,
levels, proestrus, rat 83
Neuropeptides,
calcitonin gene-related peptide, assay 15
hypothalamus, glucose effects on, rat 437
induction-membrane currents, *Xenopus* oocytes 65
Phe-Met-Arg-Phe-NH_2, gill withdrawal reflex, *Aplysia* 29
regulation—gastric acid secretion/gastric emptying, dog 163
Nicotine,
effects on catecholamine nerve terminals/neuroendocrine function, hypothalamus, rat 455
Norepinephrine,
paraventricular nucleus/median eminence, Cushing's disease, dog, 169
regulation—luteinizing hormone release, rat 157
release, hypothalamus, effects on sexual behaviour, rat 383

Oestradiol,
effects on GABA/5-hydroxytryptamine, suprachiasmatic nucleus, rat 415
Oestrogen,
effects on kallikrein, pituitary gland, rat 199
effects on oxytocin mRNA, preoptic area, hypothalamus, 273
Ontogeny,
arginine vasotocin/mesotocine gene, brain, chicken 473

Ovarian hormones,
role—prolactin secretion regulation, rat 299
Ovary,
regulation—luteinizing hormone secretion, pregnant rat 257
role—prolactin secretion regulation, rat 299
Ovulation,
rat, role—pineal gland 195
Oxytocin,
effects on milk ejection, rat 173
mRNA, levels, preoptic area, hypothalamus, oestrogen effects on 273
mRNA, localization, hypothalamus 73
post-translational modification 47
release, lactating rat 305

Paraventricular nucleus,
protein kinase C 79
role—litter deficits, stressed rat 407
vasopressin release, cholinergic effects on, rat 403
Pars intermedia,
interaction—corticotropin-releasing hormone 5
Pars tuberalis,
sheep, melatonin receptors, autoradiography 1
Peptides,
growth hormone-releasing, rats, 249
Pineal gland,
regulation—gonadotropin secretion 195
tyrosine hydroxylase-positive, dopamine β-hydroxylase-negative cells, electron microscopy/immunocytochemistry, hamster 423
Pituitary gland,
acetylated vasopressin/oxytocin 47
ACTH secretion, regulation, *in vitro* 117
anterior, cell line, rat, preprodynorphin processing 363
β-endorphin, stress effects on 357
glucocorticoid receptors, rat 465
gonadotropin mRNA levels, regulation, sheep 327
insulin-like growth factor I binding, regulation, rat 179
insulin-like growth factor I receptors, rat 369
intermediate lobe, interaction—corticotropin-releasing hormone 5
kallikrein genes 199
luteinizing hormone-releasing hormone receptors, rat 141
protein kinase C transcription 79
substance P nerve fibres, relationship—somatotrophs, monkey 397
thyrotropin-secreting tumour, man, hormonal characterization 321
melatonin receptors, hamster 315
tumours, prolactin release, regulation, rat 9
Pituitary hormones
release, co-pulsatility, man/sheep 185
Potassium channels,
Ca^{2+}-activated, dissociated neurons, bursting activity 89
Preoptic area,
β-endorphin-induced prolactin release, rat 449
hypothalamus, oxytocin mRNA levels, oestrogen effects on 273
Preprodynorphin,
expression/processing, anterior pituitary gland cell line, rat 363
Proestrus
neuropeptide Y/luteinizing hormone levels, rat 83
rat, luteinizing hormone surge/ovulation, role pineal gland 195
Progestin,
receptors, central nervous system 291
receptors, arcuate nucleus, guinea-pig 333
Prolactin,
cerebrospinal fluid, oestrogen treated/lactating rat 345
molecular forms, post-translational processing, rat 427
pre-weaning stress effects on 233
pulsatile secretion 185
release β-endorphin-induced, arcuate nucleus/preoptic nucleus, rat 449
release, pituitary tumours, rat 9
secretion, regulation, rat 299
vasointestinal peptide/thyrotropin-releasing hormone effects on, rat 135
Protein kinase C,
effects on neuropeptide-induced membrane currents, *Xenopus* oocytes 65
paraventricular nucleus/supraoptic nucleus, regulation 79

Radioimmunoassay,
C-terminal glycopeptide of vasopressin precursor, guinea-pig 95
Receptors,
GABA, brain, interaction—corticosteroids 243
glucocorticoids, pituitary gland, rat 465
insulin-like growth factor I, brain/pituitary gland, rat 369
intracellular, corticosteroids, rat 243
luteinizing hormone-releasing hormone, pituitary gonadotrophs, rat 141
melatonin, brain/pituitary gland, hamster, 315
progestin, arcuate nucleus, guinea-pig 333
progestin, central nervous system 291
somatostatin, arcuate nucleus, rat 109
Renin-angiotensin system,
brain, regulation—prolactin secretion, rat 299
Reptiles,
gonads/testosterone, gonadotropin-releasing hormone effects on 205

Serotonin,
paraventricular nucleus/median eminence, Cushing's disease, dog 169
Somatostatin,
receptors, arcuate nucleus, rat 109
release, hypothalamus, glucose effects on, rat 437
regulation—growth hormone secretion, ultradian rhythm, rabbit 147
response/receptors, thyrotropin-secreting pituitary tumour, man 321
Stomach,
acid secretion/blood flow/emptying, regulation, neuropeptides, dog 163
Stress,
effects on β-endorphin 357
Substance P,
nerve fibres, relationship—somatotrophs, pituitary gland, monkey 397
Suprachiasmatic nucleus,
GABA/5-hydroxytryptamine levels, oestradiol effects on, rat 415
Supraoptic nucleus,
action potentials, role—vasopressin 215
activity, role AV3V region, rat 35
multiple synapse formation, rat 21
protein kinase C 79
Synapses,
multiple, formation, supraoptic nucleus, rat 21

Testosterone,
gonadotropin-releasing hormone effects on, *Podarcis s. sicula* 205
Thyrotropin,
secreting pituitary tumour, man, hormonal characterization 321
Thyrotropin-releasing hormone,
prolactin/growth hormone response, rat 135
release, hypothalamus, glucose effects on, rat 437
Triodothyronine,
regulation—insulin-like growth factor I binding, pituitary cells, rat 179
Tumours,
pituitary, prolactin release, regulation, rat 9
pituitary, thyrotropin-secreting, man, hormonal characterization 321
Tyrosine hydroxylase,
containing neurons, progestin receptors, arcuate nucleus, guinea-pig 333
positive cells, pineal gland, electron

microscopy/immunocytochemistry, hamster 423

Ultradian rhythm,
growth hormone secretion, rabbit 147

Vasoactive intestinal peptide,
prolactin/growth hormone response, rats 135
Vasopressin,
precursor, C-terminal glycopeptide, release, guinea-pig 95
mRNA, localization, neurons, hypothalamus 73
post-translational modification 47
regulation—ACTH secretion, pituitary cells, 117
release, lactating rat 305
release, paraventricular nucleus, cholinergic agonists effects on, rat 403
role—action potentials, supraoptic nucleus 215
Ventricles,
AV3V region, role—supraoptic nucleus activity/neurohypophysial hormone secretion, rat 35

White matter,
man, cholesterol metabolites 153

***Xenopus*,**
oocytes, membrane currents 65
